**DETAILED ACTION**

***Response to Amendment***

Claims 1-12 are pending.

***Allowable Subject Matter***

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

**Claims 1-10** are allowable because prior art fails to teach or suggest, either alone or in combination, for having an apparatus of driving a liquid crystal display comprising a voltage sensor for sensing a voltage at a middle point between the second terminal of the secondary side of the first transformers and the first terminal of the secondary side of the second transformer.

**Claims 11-12** are allowable because prior art fails to teach or suggest, either alone or in combination, for having an apparatus of driving a liquid crystal display wherein the secondary sides of the first and second transformers are connected to each other to form a neutral point, and the lighting unit further comprises a voltage sensor for sensing a voltage of the neutral point.

Prior art does disclose similar art although not entirely as claimed.

SHIN (US Patent No: 6,661,181 B2) and KANG et al. (US Patent No: 7,145,546 B2) discloses a backlight for an LCD but fails to teach of a voltage sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Response to Arguments*

Applicant's arguments, see Appeal Brief, filed 10/23/2006, with respect to claims 1-12 have been fully considered and are persuasive. The Final Rejection of 4/19/2006 has been withdrawn.
